Attorney Pregent,

In light of the court's order last week, I had a meeting with the defendants and their members last night and they want this matter resolved as expeditiously as possible given the fact that they do not want to continue expending money in court when they have a medical facility in dire need of equipment's and many people depending on the life-saving care that medical facility would be providing. They wanted me to propose a meeting between 4 of their members with four of our members in an attempt to settle these claims outside of the court.

While they are not opposed to the court's proposed appointment of a master, they are unwilling to expend the costs of going through this route when the monies should go towards the medical center. Please advise on whether your clients are amenable to this proposal so that I would know how to proceed going forward.

Best,

Attorney Pregent,

I was confused when I received your email about your proposed mediators. In any case, as stated in my email, we are agreeable to the court's proposal relative to the appointment of a special master whose role would be to supervise the emergency meeting of the membership to choose managers of the organization, oversee the adoption of a new and comprehensible bylaws and make a written report to the court.

Our first proposal would be speaking with the other side where each side brings out 4 individuals in an attempt to resolve this. Should this option not be acceptable to your clients, then of course, the court's order as stated above would be our next consideration. My clients are I do not have funds to continue with endless litigation when there is a medical center that needs equipments.

I would wait to hear back from you.

Best,

If you/your clients do not agree to this offer and do not wish to appoint a mediator then, pursuant to the Court's Order, a master will be appointed with both sides responsible for costs.
